

# Specification of WFCV-1 (2006)

## > Base Vehicle

Toyota Auto Body COMS

(Base:280kg, WFCV-1:267kg)

L × W × H                      1.935 × 0.955 × 1.6m

## > Motor (PM Synchronous type)

Max. Power                      2kW × 2(In Wheel)

Max. Torque                      200Nm

## > Main Battery

Ni-MH Battery

Rated Voltage                  72V

Capacity                          6.5Ah

## > Fuel Cell

PEMFC (Ballard)

Max. Power                      1.2kW

## > Hydrogen Storage System

High pressure cylinder (JFE Container)

Pressure                          19.6MPa

Capacity                          2.8L × 4
